

April 2024

A vertical event poster with a mountain landscape background. At the top left is the Colorado Mountain Club logo. The main text "SAVE THE DATE" is written in large, stylized, light blue cursive letters. Below this, the date and time "11 May 12:30pm - 4:30pm" are displayed in bold, light blue font. The event title "2024 LEADERSHIP SUMMIT" is in large, bold, pink letters. Below the title, it says "PRE EVENT HIKING OPTIONS" in white. A pink brushstroke graphic contains the location: "Tri Lakes Chamber of Commerce Building 166 2nd St, Monument, CO 80132". At the bottom, it says "EVENT FOLLOWED BY HAPPY HOUR AT LOCAL BREWERY" in white.

**Leadership Summit: May 11th
DON'T MISS IT!**

On May 11, 2024, the Colorado Mountain Club cordially invites all members, including prospective ones, to partake in a transformative experience at the upcoming Leadership Summit. Contrary to its name, this summit isn't solely reserved for established leaders or school directors; rather, it is open to everyone, regardless of their current roles within the club.

This year, we're excited to offer the Summit in a new location: Monument, Colorado. This summit aims to unravel the qualities of leadership, within the fabric of the Colorado Mountain Club. Attendees will delve into an array of leadership objectives. From

strategizing methods to enhance participation in club activities to fostering a sense of belonging among participants, each session will be a crucible of insightful discourse.

We'll plan to conclude at a nearby brewery for a Happy Hour to celebrate leadership at CMC!

Consider Representing your School or Section at an upcoming New Member Night

New Member nights are a great way to advertise for your School or Section to prospective members. Each School or Section will setup a table with marketing material and have a chance to share about why someone should consider joining!

May 15th - Golden

June 18th - Golden

Member Photo Submission

CMC Member, Tom Jagger, captured this photo after hours meticulously setting up his equipment. *"I took this picture using a Sony full frame camera take through my solar telescope. Note the prominence or flare on the left side of the picture. This photo was taken photos of the time of maximal eclipse around 12:47 PM MDT. The solar telescope provides the red color as it only allows a few wavelengths of red light to go through. The eclipse helped to bring out the flare on the left side."*
