## “Conquering Aconcagua”

**Hannah Wittmeyer** is an avid mountaineer, trail runner, cross-country skier, and adventure racer. She has tackled many amazing challenges such as the Triple Bypass bicycle race, numerous 14'ers, 36-hour triathlon race, and Argentina's 22,841' Aconcagua. Although not an aspiring 'professional' mountaineer, **Hannah** enjoys studying the trajectories of professional mountaineers, along with the history and limits pushed in high-altitude conditions. Many alpinists aspire to tackle one, some, or all of the acclaimed Seven Summits. Among the most accessible of these is Aconcagua, leading thousands to attempt its various routes every year.

**DATE:**            **Wednesday, March 27, 2019**

**TIME:**            **Social at 6:30 p.m., Presentation at 7:30 p.m.**

**LOCATION:**    **Odell's Brewery, 800 E. Lincoln Ave., Fort Collins**

Join the **Colorado Mountain Club Fort Collins Group** for an inspirational evening as **Hannah Wittmeyer**, local (aspiring) alpinist, shares her trip and successful summit of 22,841' Aconcagua with her friend, Rob. She will provide trip-specific insights from her unguided ascent of the Normal Route, and then invite you to join a broader discussion of new-age alpinism: the culture, gear, training, and ethics surrounding the sport. Enjoy Odell's tap room beverages while we have a fun evening socializing!

When Hannah is not in the midst of a recreational mountain challenge, she works for the Bohemian Foundation, plays banjo, enjoys group acrobatics, music and good times with friends. You do not want to miss this special evening with such an inspiring young athlete!
